

PROTECTIVE ELEMENTS

BOLLARDS and KERBS

ATT offers wide range of stainless steel bollards and kerbs for commercial and industrial purposes. Elements are designed to protect warehouses stocks, production machinery, walls or to be used as separation between areas.

These products are manufactured according to **individual projects** to meet requirements of our customers.

Steel thickness varies from 1,5 mm, though standard 2 mm, up to bespoke dimensions. Products are offered in passivated or brushed finishing.

ATT's bollards can be anchored in the ground or mounted to the surface by bolted plate. Please ask ATT's sales department for bollards and kerbs **installation** offer.
