

STAINLESS BUFFERING TILES

Stainless buffering tiles offered by ATT are made of 2 [mm] thick sheet metal. They feature high degree of resistance to devastation and damage, and withstand virtually every load occurring in industry and transport.

Due to the strict hygienic requirements imposed by e.g. food processing industry standards, ATT offers stainless steel products characterized by anti-corrosion, hygienic finishing, and durability.

APPLICATION

- heavy industry plants,
- food industry plants,
- production halls,
- warehouses, stacking yards,
- printing houses,
- unloading ramps,
- foundries, ironworks.

ADVANTAGES

- resistance to high load classes,
- durability,
- safety,
- renovation of the floor is not required,
- technical support during the entire process of implementation of an order,
- installation service.
